RELATED PARTY EXPENSES – Schedule D

Nursing Homes are exempt from completing/preparing the Related Party Transactions.

Definitions:

- A. **“Related to the home”** means that the home to a significant extent is associated or affiliated with, or has control of, or is controlled by, the organization and/or individual furnishing the services, facilities, or supplies.
- B. **“Common ownership”** exists when an individual or individuals possess significant ownership or equity in the home and the institution or organization serving the home.
- C. **“Control”** exists where an individual or an organization has the power, directly or indirectly, significantly to influence or direct the actions or policies of an organization or institution. The term "control" includes any kind of control, whether or not it is legally enforceable and however it is exercisable or exercised. It is the reality of the control that is decisive, not its form or the mode of its exercise.
- D. **“Necessary services”** are those services needed for the efficient operation and sound management of the facility such that had the owners or owner-related individual not rendered the services, the facility would have had to employ another person to perform the services.
- E. **“Ownership interest”** means the entitlement to a legal or equitable interest in any property of the facility whether such interest is in the form of capital, stock, or profits of the facility.
- F. **“Owner”** – An owner shall be considered any individual with a 5% or more ownership interest in the facility.
- G. **“Owner-Related Individual”** – An owner-related individual shall be considered an individual who is a member of an owner’s immediate family which includes spouse, natural or adoptive parent, natural or adopted child, stepparent, stepchild, sibling or stepsibling, in-laws, grandparents and grandchildren.
- H. **“Compensation”** means the total benefits received by the owner for the services he/she renders to the institution. Such compensation shall include:
 - (1) Salary amounts paid for managerial, administration, professional, and other services
 - (2) Amounts paid by the institution for the personal benefits of the proprietor
 - (3) The costs of assets and services which the proprietor receives from the institution
 - (4) Deferred compensation
 - (4) Compensation reported for tax purposes

In determining whether a home is related to a supplying organization and/or individual, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other.

The existence of an immediate family relationship will create an irrefutable presumption of relatedness through control or attribution of ownership or equity interests. The following persons are considered immediate family for Adult Care Program purposes:

- (1) Husband and wife
- (2) Natural parent, child and sibling
- (3) Adopted child and adoptive parent
- (4) Step-parent, step-child, step-sister, and step-brother

Compensation to Owners and Owner Related Individuals:

Allowability of Compensation and Recordkeeping Requirements

Owners of provider organizations often render services as managers, administrators, or in other capacities. In such cases, it is equitable that reasonable compensation for the necessary services rendered be an allowable cost. To do otherwise would disadvantage such owners in comparison with corporate providers or providers employing non-owners to perform the same services.

Distribution of profits is a form of compensation paid to a proprietor. However, this form of compensation is **not an allowable cost** of the facility because it is not contingent on performance of necessary services. Where a proprietor renders necessary services for the institution, the institution is, in effect, employing his services and a reasonable compensation for these services is an allowable cost. The salaries of owners and owner-related employees are subject to the requirements of reasonableness. Reasonableness of compensation will be determined by reference to or in comparison with compensation paid for comparable services and responsibilities in comparable institutions or it may be determined by other appropriate means. Where the services are rendered on less than a full-time basis, the allowable compensation should reflect an amount proportionate to a full-time basis.
